# HANGING WIRES

**TWISTER™**

MAX.  
20 KG

## 1 SIMPLE-SAFE-STRONG

Artiteq developed the Twister glider system for all its hanging rails. Twister offers the most Logical and user-friendly way to hook the hanging wire into the rail: insert, twist, click and you're done. Since the Twister may be clicked anywhere on the rail, you can hang a picture anywhere you like on the wall. You have the option of using Twister in perlon, steel wire or rods for all the Artiteq hanging systems. The perlon and steel hanging wires with the Twister mechanism are available in 1 or 2 mm thicknesses, and in lengths ranging from 100 to 500 cm.

**TWISTER™**

Twister is a European Registered Community Design.

**TWISTER™ CLIQ2FIX perlon**

MAX.  
20 KG

## 2 EXTRA EASE-OF-USE

Thanks to the development of the Twister Cliq2Fix perlon system, perlon cord now has an additional functionality when it comes to hanging pictures. The hanging wire equipped with the Twister Cliq2Fix system may be inserted in the rail, eliminating the risk of the perlon cord popping loose from the rail as a result of its recoiling effect. This makes it extra safe, and easy to slide into the rail. In other words, extra ease-of-use.

**SLIDER ECONOMY**  
not visible in the rail

MAX.  
15 KG

## 3 SLIDE INTO SIDE

Artiteq developed the Solid Slider system which attaches the hanging wire with glider via the side of the rail. This system is available for 2 mm perlon and 2 mm steel wire. The hanging wire may be freely slid into the hanging rail, yet may not be removed from the rail as easily. Hanging wires with the Solid Slider mechanism are available in lengths of 100, 150, 200, 250, 300 en 500 cm. A slanted stop system is available for slanted walls. This system makes it possible to use a flexible picture hanging system even with slanted walls, for example in a staircase.

# HOOKS

Depending on the weight of a frame or other wall decoration, the right picture hook must be selected. The wide product range offers hooks with maximum load capacities varying from 4 kg to 20 kg.

The maximum weight carrying capacity of a picture hook is only valid when the frame is correctly applied to the hook. This illustration shows how to correctly charge the picture hook.

**Micro Grip** represents the newest generation of hooks. A high-quality plastic reinforced with fibreglass was chosen for this hook, leading to a 70% reduction in the use of materials compared with previous generations of hooks. In addition to the ecological advantages, the hook is extremely lightweight as a result, and very easy to use. The **Micro Grip** technology has been developed and patented by Artiteq. To guarantee the quality of the **Micro Grip** hooks, Artiteq has developed quality assurance procedures together with TÜV Nederland. The execution is under supervision of TÜV Nederland.

# COMBINATIONS

A picture hanging system comprises the following elements: **rail**, **hanging wire** and **hanging hook**. Artiteq guarantees the functionality of the products because it carefully coordinates the various elements of a picture hanging system. The quality can only be guaranteed when original (Artiteq) products are combined correctly. The guarantee is null and void if there are combinations other than with the correct Artiteq products. A frame or canvas will always hang more steadily if **2 hanging wires** are used.

The weight of the frame determines the choice of the hook and wire, in combination with the maximum weight carrying capacity of one metre of the rail.

**INCORRECT COMBINATIONS**

**CORRECT COMBINATIONS**

# MISCELLANEOUS

## TWISTER HOOK

Instead of a hanging wire and hook, a Twister Hook can be used. This plastic hook can provide an inexpensive and practical solution for hanging light panels in combination with a picture hanging system.

# MISCELLANEOUS

## LOOP MAKER

The Loop Maker offers a solution for hanging objects if a hook cannot be used. As it is possible to create a loop with the 2-mm perlon hanging wire, it is possible to hang much more than just a picture frame!

# MISCELLANEOUS

## PICTURE MOUSE

	PICTURE MOUSE WHITE	PICTURE MOUSE STEEL
	150 cm	150 cm
ARTICLE NO.	7805.014	7805.016
COMPATIBLE WITH ALL ARTITEQ PICTURE HANGING SYSTEMS		

Picture Mouse is a handy and original hanging cord for displaying several documents, such as cards and photos. It can also be used as a 'solo' version rather than as part of a picture hanging system. The Picture Mouse Solo system is simple to install by mounting the wall clip to the wall. The steel Picture Mouse cord can be inserted and is hung from the wall clip.

## PICTURE MOUSE SOLO (COMPLETE SET)
