Make a statement with LED panels

This cable system, with LED lighting, enables documents, products and services to be displayed perfectly. It is ideal as a display system in display cabinets, where the information can stand out both day and night! The rail can be mounted to the wall or the ceiling. The adaptors can be twisted into and out of the rail in an instant, allowing flexible use of the system.

DISPLAY IT LED FIXED

An eye-catcher on the wall

The Display It LED Fixed cable system is mounted to the wall or ceiling and because of the LED panels, this creates a striking display. Like the Flex version, the Display It LED Fixed can be used in display cabinets or in other places in a building. The content of the panels can be changed in no time.

DISPLAY IT LED PANELS

The A3, A4, A2 and A1 LED panels can be used in landscape and portrait format. The 2x A4 and 3x A4 LED panels can only be used in portrait format. All LED panels are equipped with bright LED lighting. The steel cables run through an auto-grip mechanism through the LED panels, connecting these together. This gives a professional, streamlined display and allows the height of the panels to be quickly and easily adjusted. This system allows double-sided displays: translucent paper can be inserted into the front and back of the LED panels.
